Data & Reporting Tools: SQL, Tableau, Excel (Pivot Tables, XLOOKUP, Power Query), Python (Pandas, NumPy), R

Dashboard & BI Skills: Dashboard Development, KPI Reporting, Data Visualization, Ad Hoc Reporting, Trend Analysis

Business Analysis Skills: Requirements Gathering, Stakeholder Communication, Process Improvement, Business Reporting, Data Validation

Systems & Platforms: Salesforce, SAP, Oracle, QuickBooks, JDA Software, Microsoft Project

Methods: Forecasting, Variance Analysis, Performance Metrics, Workflow Optimization

PROFESSIONAL EXPERIENCE

WebXd: Data Analyst (Contractor)

San Diego, CA | Aug 2025 – Present

- Partner with stakeholders to translate business goals and client KPIs into measurable reporting metrics and dashboard requirements
- Develop reporting and performance insights to support marketing ROI, conversion analysis, and campaign effectiveness
- Create structured reports and data summaries to support decision-making across client-facing initiatives
- Collaborate cross-functionally to deliver data-driven recommendations and track performance outcomes
- Support ad hoc reporting requests by organizing and analyzing data for business users

Target: Team Lead, Specialty Sales

San Diego, CA | Oct 2023 – Jul 2025

- Analyzed daily, weekly, and monthly sales and inventory data to identify performance trends, revenue opportunities, and operational risks
- Used KPI reporting and business metrics to support merchandising decisions, product placement, and department performance improvements
- Interpreted performance reports to guide staffing, labor allocation, and operational planning for a 30+ employee department
- Worked cross-functionally with leadership to communicate business performance and support data-informed decisions
- Monitored sales trends, shrinkage, and inventory variance to improve reporting accuracy and operational efficiency

Boys & Girls Club of San Dieguito: Billing Specialist

San Diego, CA | Jan 2023 – Oct 2023

- Produced recurring reports tracking enrollment, revenue, expenses, staffing, and operational performance across multiple locations
- Analyzed participation and budget data to support forecasting and staffing decisions
- Communicated program performance and operational needs to leadership and internal stakeholders
- Improved reporting consistency and reduced operational inefficiencies through process improvements

Pure Health Alliance: Clinic Manager

San Diego, CA | Oct 2022 – Mar 2023

- Analyzed billing, reimbursement, scheduling, and operational data to improve reporting accuracy and support business decisions
- Identified trends in payment and claims performance to improve revenue cycle visibility and reduce administrative errors
- Created and monitored operational metrics to support workflow improvements and service efficiency
- Worked with internal stakeholders to resolve reporting and process-related issues

Aerotek (On-Premise at LabCorp): Account Manager / On-Premise Manager

San Diego, CA | Feb 2021 – Oct 2022

- Managed workforce reporting and labor utilization analysis across 700+ contractors to support staffing strategy and operational performance
- Analyzed headcount, attendance, productivity, and compliance data to identify business trends and support decision-making

- Delivered reporting insights to internal leadership and client-facing stakeholders in a fast-paced operational environment
- Supported large-account planning through performance tracking, workforce metrics, and business communication

Starbucks: Barista

San Diego, CA | Oct 2025 – Present

- Support team operations and customer service in a high-volume environment
- Maintain accuracy, consistency, and process adherence across daily operations

ANALYTICAL PROJECTS

Profitability & KPI Dashboard (SQL + Tableau)

- Built an executive dashboard to track revenue, profitability, and performance drivers across key business metrics
- Used SQL to extract, organize, and prepare data for reporting and dashboard visualization
- Designed reporting views to improve visibility into trends and reduce manual reporting effort

Retail Sales Forecasting Model (Python)

- Built a forecasting model to predict weekly sales demand and support staffing and inventory planning
- Analyzed trends and evaluated model performance using forecasting accuracy metrics

Exploratory Business Analysis (R)

- Conducted regression and trend analysis to identify factors influencing sales and business performance
- Translated analytical findings into clear business insights and reporting takeaways
